2 Decoration Kilns-(850° to 1220°C)

3 Decal Printing Machines

1 Packaging Plant

Paragon Ceramic is equipped with top-of-the-line Testing and Quality Control Laboratory facilities, its own captive gas-based Power generation plant, its own water supply through Deep Tube well, and medical and sanitary facilities. PCIL is one of the MOST ENVIRONMENT-FRIENDLY Tableware plants in the Region. The Factory is set up on about 10 Acres of land and has a total covered area of more than 20,000 sqm.

Some of the Environmental control points are as follows.

State-of-the-art Effluent Treatment Plant (ETP).

High-efficiency production Machineries to reduce overall energy usage.

Combined use of heat & power generation to reduce gas consumption.

Use of Solar Energy for up to 2 MW (Proposed).

Raw Materials used without Lead, Cadmium and Barium.

Conserve rainwater and use it inside the Factory.

Utilities at Paragon Ceramic

1.75 MW own Power Generation (2 Gas Based and 1 Diesel Based).

240 Meters of Busbar Power Distribution.

2600 Liters/Minute Water usage capacity from Deep Tubewell.

Heat Recovery from GK and used in Dryers at the Plant to dry Green wares.

17,500 cubic meter Gas used daily to run Biscuit, Glost, Decor Kilns and Generators.

Tableware Production Capacity:

About 53,000 Pieces of world-class Porcelain tableware are produced at PCL per day, which is about 19.20 Million Pcs of production per year, combining body formulation, forming, glazing, firing, decal printing, decoration and packaging.

Porcelain Bodies: PCIL can make 4 Bodies:

Universal Porcelain - which is normal White Porcelain

Pearl Collection - which is the Super White Porcelain

Alumax - which is Alumina Porcelain with about 30% AL₂O₃.

Ivory Silk - which is Fine China in Cream color.

The Company is capable of producing Mix n Match, which is any Colored Body and/or Colored Glaze, if the requirement is significant by the Customers.

Decal Plant and Design:

PCIL is presently producing about 90,000 sheets per month, starting from single color up to 16 Colors including Gold/Platinum, both On-glaze and In-glaze, and completely Lead, Cadmium and Barium Free.

Packaging Plant:

Paragon Ceramic is producing about assorted 160,000 Pieces of White and/or Brown Cartons per month, with the additional capability to supply 4 Color Printed Cartons.

Head Office (International Marketing):

House No. 43/B, Road No. 123, Gulshan Ave,
Gulshan-1, Dhaka-1212, Bangladesh.
